LECHLER

FORD COLOR RANGE 1992-2010

Note: la guida riportata in questo opuscolo Vi permetterà di identificare il codice delle tinte Ford nel Vostro campionario colore nel seguente modo:

- Identificare il modello della vettura e l'anno di fabbricazione
- Identificare il codice colore sulla targhetta posta nelle differenti posizioni della autovettura

La prima lettera o il primo numero, identificano il colore, mentre la seconda cifra è riferita all'anno di produzione della vettura (vedi etichetta identificativa)

Confrontare a questo punto con la nostra gamma di coloritura allegata. Potrete così trovare la formulazione corrispondente con il codice Lechler nella colonna "Codice Data Box"

Esempio: Autovettura Mondeo grigio metallizzato anno 1997, codice **R**

Consultare la tabella Ford Mondeo ed identificare nell'anno di produzione (1997) la codifica **R**.

La tinta da ricercare sarà quindi **J 7** come riportato nella colonna Data Box Color Code.

The guide related to this brochure will help you to identify the Ford colour codes in your pattern box in the following way:

- Identify the model of the motor vehicle and the year of manufacture
- Identify the colour code on the label in the different car position

The first letter of the first number identifies the colour and the second figure is referred to the production year of the vehicle (see the identifying plate)

Then compare it with our enclosed Colour Range. You may find the relative formulation with Lechler code identified in the column "Data Box Colour Code".

Example: Ford Mondeo grey met year 1997. Code on the label **R**

Check the Ford Mondeo list and identify the year of production referred (1997) the code **R**.

The colour you have to look for will be **J 7** as related to column Data Box Colour Code.
